

space is oriented geocentrically. What are the chances that this could happen by accident? The team of Copernicans has to admit that the “combined chance probability is certainly less than one in 10,000.” So upsetting is this evidence to the scientific *status quo* that another magazine, *New Scientist*, labeled the same universal orientation around Earth’s equatorial plane as, “**THE AXIS OF EVIL**,” since this geocentric picture virtually destroys its cherished Copernican principle.”

Glenn Starkman and Dominik Schwarz, “Is the Universe Out of Tune,” *Scientific American*, August 2005, p. 50.285 *Ibid.*, p. 55. 286 *Ibid.*,

NASA’s assumption for the Big Bang etc

“Given the assumption that the matter in the universe is homogeneous and isotropic (The Cosmological Principle) it can be shown. . . Given a law of gravity and an assumption about how the matter is distributed, the next step is to work out the dynamics of the universe, how space and the matter in it evolves with time. . . . Note that the present age of the universe follows from the expansion history and present expansion rate.”

Planck Satellite results and Lawrence Krauss

The first popularly published reports of findings from this satellite (March 2013), the follow up satellite from the Wilkinson Anisotropy Probe and the Cobi Satellite, found with more accuracy the same phenomena, a preferred direction in space which was reported as an “axis of evil” and required a “new physics” to explain. (New Scientist website)

Lawrence Krauss cosmologist, advisor to Barack Obama on scientific matters and a winner of national scientific awards, said in 2006 of the **previous** satellites findings:

“ But when you look at [the cosmic microwave background] map, you also see that the structure that is observed, is in fact, in a weird way, correlated with the plane of the earth around the sun.

Is this Copernicus coming back to haunt us?

That’s crazy.

We’re looking out at the whole universe. There’s no way there should be a correlation of structure with our motion of the earth around the sun — the plane of the earth around the sun — the ecliptic.

That would say we are truly the center of the universe.”

<http://edge.org/conversation/the-energy-of-empty-space-that-isn-39t-zero>

This leading cosmologist said that because he thought the results were caused by inaccuracies in measurements and would be rectified by later probes. The Planck probe confirmed with incredible accuracy the ‘preferred direction in space’ and the earth at the ‘center of the universe’

Morality

“... the American neuroscientist and philosopher Sam Harris, author of *The End of Faith*, publishes *The Moral Landscape*, which argues that religion is not the chief authority on meaning, values and a good life. **The Bible, he tells me, “is about as authoritative on the subject of morality as it is on astronomy”**”

Dismantling the High Places Cosmology

Colossians 2v6-10

6 As you have therefore received Christ Jesus the Lord, so walk in Him,

7 rooted and built up in Him and established in the faith, as you have been taught, abounding in it with thanksgiving.

8 Beware lest anyone cheat you through philosophy and empty deceit, according to the tradition of men, according to the basic principles of the world, and not according to Christ.

9 For in Him dwells all the fullness of the Godhead bodily;

10 and you are complete in Him, who is the head of all principality and power.

Joshua 10 v12-14

On the day the LORD gave the Amorites over to Israel, Joshua said to the LORD in the presence of Israel: “O sun, stand still over Gibeon, O moon, over the Valley of Aijalon.”

13 So the sun stood still, and the moon stopped, till the nation avenged itself on its enemies, as it is written in the Book of Jashar. The sun stopped in the middle of the sky and delayed going down about a full day.

14 There has never been a day like it before or since, a day when the LORD listened to a man. Surely the LORD was fighting for Israel!

2Kings 20:9-12

9And Isaiah said, “This is the sign to you from the Lord, that the Lord will do the thing that he has promised: shall the shadow go forward ten steps, or go back ten steps?”

10And Hezekiah answered, “It is an easy thing for the shadow to lengthen ten steps; rather let the shadow go back ten steps.”

11And Isaiah the prophet cried to the Lord; and he brought the shadow back ten steps, by which the sun had declined on the dial of Ahaz.

12At that time Merodachbaladan the son of Baladan, king of Babylon, sent envoys with letters and a present to Hezekiah; for he heard that Hezekiah had been sick.

2 Chronicles 32:31

31And so in the matter of the envoys of the princes of Babylon, who had been sent to him to inquire about the sign that had been done in the land, God left him to himself, in order to try him and to know all that was in his heart.

32Now the rest of the acts of Hezekiah, and his good deeds, behold, they are written in the vision of Isaiah the prophet the son of Amoz, in the Book of the Kings of Judah and Israel.

Isaiah 38:7-8

7 "This is the sign to you from the Lord, that the Lord will do this thing that he has promised:
8 Behold, I will make the shadow cast by the declining sun on the dial of Ahaz turn back ten steps." So the sun turned back on the dial the ten steps by which it had declined

Psalms 93:1-2

1 The Lord reigns; he is robed in majesty; the Lord is robed, he is girded with strength. Yea, the world is established; it shall never be moved.

2 thy throne is established from of old; thou art from everlasting.

Psalms 96:9-11

9 Worship the Lord in holy array; tremble before him, all the earth!

10 Say among the nations, "The Lord reigns! Yea, the world is established, it shall never be moved; he will judge the peoples with equity."

11 Let the heavens be glad, and let the earth rejoice; let the sea roar, and all that fills it;

Psalms 119:89-91

89 For ever, O Lord, thy word is firmly fixed in the heavens.

90 Thy faithfulness endures to all generations; thou hast established the earth, and it stands fast.

91 By thy appointment they stand this day; for all things are thy servants.

Athanasius: For the Sun is carried round along with, and is contained in, the whole heaven, and can never go beyond his own orbit, while the moon and other stars testify to the assistance given them by the Sun. But the earth is not supported upon itself, but is set upon the realm of the waters, while this again is kept in its place, being bound fast at the center of the universe.

Against the Heathen, Part 1, No. 27.

Augustine of Hippo

"But more dangerous is the error of certain weak brethren who faint away when they hear these irreligious critics learnedly and eloquently discoursing on the theories of astronomy or on any of the questions relating to the elements of this universe. With a sigh, they esteem these teachers as superior to themselves, looking upon them as great men; and they return with disdain to the books which were written for the good of their souls; and, although they ought to drink from these books with relish, they can scarcely bear to take them up.

Quotes from Scientists

Fred Hoyle "We might hope therefore that the Einstein theory, which is well suited to such problems, would throw more light on the matter. But instead of adding further support to the heliocentric picture of the planetary motions, the Einstein theory goes in the opposite direction, giving increased respectability to the geocentric picture. The

relation of the two pictures is reduced to a mere coordinate transformation, and it is the main tenet of the Einstein theory that any two ways of looking at the world which are related to each other by a coordinate transformation are entirely equivalent from a physical point of view.

Fred Hoyle, Nicolaus Copernicus: An Essay on His Life and Work, p. 87. Harper and Row, New York, 1973.

Alexander von Humboldt (d. 1859), the founder of modern geography and of whom Charles Darwin said that he was "the greatest scientific traveler who ever lived," and, of whom, after his death, Geoffrey Martin said "no individual scholar could hope any longer to master the world's knowledge about the Earth,"¹⁴⁵

"I have known, too, for a long time, that we have no arguments for the Copernican system, but I shall never dare to be the first to attack it. Don't rush into the wasp's nest. You will but bring upon yourself the scorn of the thoughtless multitude. If once a famous astronomer arises against the present conception, I will communicate, too, my observations; but to come forth as the first against opinions which the world has become fond of – I don't feel the courage."

¹⁴⁶

Quoted in F. K. Schultze's synopsis and translation of F. E. Pacshe's *Christliche Weltanschauung* (cited in *De Labore Solis*, p. 133). Also cited in C. Schoepffer's *The Earth Stands Fast*, C. H. Ludwig, 1900, p. 59.

"Earth ..at Rest"

"By the time of physicist **Henrick Lorentz** in the early 1890s, it was obvious to many what the experimental results were saying. In Lorentz's own words: "Briefly, everything occurs as if the Earth were at rest ""

Lorentz's 1886 paper, "On the Influence of the Earth's Motion on Luminiferous Phenomena," quoted in Miller's *Albert Einstein's Special Theory of Relativity*, p. 20.

"Axis of Evil"

"What they found contradicted the standard inflationary cosmology – the hemispheres often had very different amounts of power. But what was most surprising was that the pair of hemispheres that were the most different were the ones lying above and below the ecliptic, the plane of the earth's orbit around the sun. This result was the first sign that the CMB fluctuations, which were supposed to be cosmological in origin, have a solar system signal in them that is, a type of observational artifact."

The significance of Eriksen's finding may go over the heads of most people not familiar with astrophysical language, but the simple interpretation is that all the radiation in the universe, whether it is symmetric or asymmetric, is centered around the Earth (although because Eriksen is a Copernican he refers to it as "the plane of the earth's orbit around the sun"). This is confirmed when Schwarz, *et al.*, state later: "Within that plane, they sit unexpectedly close to the equinoxes – the two points on the sky where the projection of the earth's equator onto the sky crosses the ecliptic." In other words, all the data show that, as far out as our telescopes can see,
